

6 W 4" cabinet loudspeaker EN 54, metal

Part-No.: 582470

The cabinet loudspeaker offers a broad frequency range and a high sound pressure level for an accurate and intelligible transmission of the evacuation messages, including an excellent sound reproduction. It is ideal for an even dispersion of sound in public and commercial buildings. Its low-profile, white color design blends easily with most interiors in locations such as hotels, schools, conference rooms, cinemas, amusement parks, factories, and trade fair halls. The driver unit is impregnated against moisture. This cabinet loudspeaker complies with the BS 5859-8 standards, and is certified according to the EN 54-24 standard.
